FOR IMMEDIATE RELEASE

PHX Minerals Reports Results for the Quarter Ended June 30, 2023; Announces Dividend Payment

FORT WORTH, Texas, Aug. 8, 2023 – PHX MINERALS INC., “PHX” or the “Company” (NYSE: PHX), today reported financial and operating results for the quarter ended June 30, 2023.

Summary of Results for the Quarter Ended June 30, 2023

- Net loss was (\$0.04) million, or \$0.00 per share, compared to net income of \$9.6 million, or \$0.27 per share, for the quarter ended March 31, 2023, and net income of \$8.6 million, or \$0.25 per share, for the quarter ended June 30, 2022.
- Adjusted pretax net income⁽¹⁾ was \$0.6 million, or \$0.02 per share, compared to \$4.7 million, or \$0.13 per share, for the quarter ended March 31, 2023, and \$4.3 million, or \$0.12 per share, for the quarter ended June 30, 2022.
- Adjusted EBITDA⁽¹⁾ was \$4.1 million, compared to \$7.7 million for the quarter ended March 31, 2023, and \$7.2 million for the quarter ended June 30, 2022.
- Royalty production volumes decreased 4% to 2,010 Mmcfe compared to the quarter ended March 31, 2023, and increased 26% compared to the quarter ended June 30, 2022.
- Total production volumes decreased 7% to 2,304 Mmcfe compared to the quarter ended March 31, 2023, and decreased 5% compared to the quarter ended June 30, 2022.
- Converted 81 gross (0.30 net) wells to producing status, compared to 117 gross (0.46 net) during the quarter ended March 31, 2023 and 96 gross (0.25 net) during the quarter ended June 30, 2022.
- Inventory of 186 gross (0.51 net) wells in progress and 86 gross (0.40 net) permits as of June 30, 2023, compared to 198 gross (0.65 net) wells in progress and 86 gross (0.24 net) permits as of March 31, 2023.
- Total debt was \$23.8 million and the debt to adjusted EBITDA (TTM)⁽¹⁾ ratio was 0.93x at June 30, 2023.
- PHX closed on acquisitions totaling 151 net royalty acres located in the SCOOP and the Haynesville plays for approximately \$1.8 million.
- PHX announced a \$0.0225 per share quarterly dividend, payable on Sept. 8, 2023, to stockholders of record as of Aug. 24, 2023.

⁽¹⁾ This is a non-GAAP measure. Refer to the Non-GAAP Reconciliation section.

Chad L. Stephens, President and CEO, commented, “We continue to experience significant activity on our minerals including wells being put on production, new wells being spud and new permitting, demonstrating the quality of our assets even during a down market with lower natural gas prices. During the quarter, we experienced increased rig activity on our minerals compared to a year ago, expanding our market share of rigs operating within our core regions. The sequential decline in royalty volumes during the quarter is primarily attributable to the timing of wells being placed online. We continually monitor operator activity across our mineral position and are confident that the timing of our wells in progress will support our royalty volume growth allowing us to achieve our royalty volume outlook for calendar 2023, driving revenue growth and increasing cash flow.

“It appears the second quarter likely represented the bottom for natural gas prices and current macro dynamics suggest sequential price improvements in the remainder of the year,” said Stephens. “In spite of a dramatic drop in natural gas prices in the second quarter, PHX Minerals remained focused on proactively allocating its free cash flow to fund acquisitions, return capital to shareholders via our fixed dividend and improving our liquidity position. This speaks to the inherent benefits of our business model in mitigating risks and expanding margins to maximize cash flow. The acquisition market dynamics are improving as natural gas prices stabilize. Our strong balance sheet and cash flow provide ample liquidity to deploy judiciously to fund our growth strategy.”

9/30/2022	1,525,363	32,202	20,488	1,841,502

Royalty production volumes attributable to natural gas were 83% for the quarter ended June 30, 2023.

*****MORE*****

Working Interest Production for the last four quarters was as follows:

Quarter ended	Mcf Sold	Oil Bbls Sold	NGL Bbls Sold	Mcf Sold
6/30/2023	181,139	5,410	13,413	294,077
3/31/2023	258,036	8,712	13,041	388,554
12/31/2022	365,495	18,715	18,258	587,330
9/30/2022	522,251	17,700	20,273	750,086

Quarter Ended June 30, 2023, Results

The Company recorded net loss of (\$0.04) million, or \$0.00 per share, for the quarter ended June 30, 2023, as compared to net income of \$8.6 million, or \$0.25 per share, for the quarter ended June 30, 2022. The change in net income was principally the result of a decrease in natural gas, oil and NGL sales and a decrease in gains on asset sales, partially offset by an increase in gains associated with our hedge contracts and a decrease in income tax provision.

Natural gas, oil and NGL revenue decreased \$12.3 million, or 63%, for the quarter ended June 30, 2023, compared to the quarter ended June 30, 2022, due to decreases in natural gas, oil and NGL prices of 72%, 30% and 49%, respectively, and decreases in natural gas, oil and NGL volumes of 2%, 16% and 15%, respectively.

The production increase in royalty volumes during the quarter ended June 30, 2023, as compared to the quarter ended June 30, 2022, resulted from new wells in the Haynesville Shale coming online.

The Company had a net gain on derivative contracts of \$0.2 million for the quarter ended June 30, 2023, comprised of a \$1.0 million gain on settled derivatives and a \$0.9 million non-cash loss on derivatives, as compared to a net loss of (\$2.4) million for the quarter ended June 30, 2022. The change in net gain on derivative contracts was due to the Company's settlements of natural gas and oil collars and fixed price swaps and the change in valuation caused by the difference in June 30, 2023 pricing relative to the strike price on open derivative contracts.

Six Months Ended June 30, 2023, Results

The Company recorded net income of \$9.5 million, or \$0.26 per share, for the six months ended June 30, 2023, as compared to a net income of \$4.6 million, or \$0.13 per share, for the six months ended June 30, 2022. The change in net income was principally the result of an increase in gains associated with our hedge contracts and an increase in gains on asset sales, partially offset by a decrease in natural gas, oil and NGL sales and an increase in income tax provision.

Natural gas, oil and NGL revenue decreased \$15.3 million, or 44%, for the six months ended June 30, 2023, compared to the six months ended June 30, 2022, due to decreases in natural gas, oil and NGL prices of 51%, 23% and 41%, respectively, and decreases in oil and NGL volumes of 5% and 16%, respectively.

The production increase in royalty volumes during the six months ended June 30, 2023, as compared to the six months ended June 30, 2022, resulted from new wells in the Haynesville Shale coming online.

The Company had a net gain on derivative contracts of \$4.0 million for the six months ended June 30, 2023, comprised of a \$1.7 million gain on settled derivatives and a \$2.3 million non-cash gain on derivatives, as compared to a net loss of (\$15.4) million for the six months ended June 30, 2022. Gain on settled derivative contracts for the six months ended June 30, 2023, excludes \$0.4 million of cash paid to settle off-market derivative contracts. The total cash received to settle hedge contracts during the six months ended June 30, 2023 was \$1.3 million. The change in net gain on derivative contracts was due to the Company's settlements of natural gas and oil collars and fixed price swaps and the change in valuation caused by the difference in June 30, 2023 pricing relative to the strike price on open derivative contracts.

Operations Update

During the quarter ended June 30, 2023, the Company converted 81 gross (0.30 net) wells to producing status, including 26 gross (0.20 net) wells in the Haynesville and 20 gross (0.06 net) wells in the SCOOP, compared to 96 gross (0.25 net) wells in the quarter ended June 30, 2022.

*****MORE*****

At June 30, 2023, the Company had a total of 186 gross (0.51 net) wells in progress across its mineral positions and 86 gross (0.40 net) active permitted wells, compared to 198 gross (0.65 net) wells in progress and 86 gross (0.24 net) active permitted wells at March 31, 2023. As of July 10, 2023, 15 rigs were operating on the Company's acreage and 61 rigs operating within 2.5 miles of its acreage.

	SCOOP	STACK	Bakken/ Three Forks	Arkoma Stack	Haynesville	Other	Total
As of June 30, 2023:

Rigs Within 2.5 Miles of PHX Acreage	12	15	3	1	23	7	61

(1) Wells in progress includes drilling wells and drilled but uncompleted wells, or DUCs.

Leasing Activity

During the quarter ended June 30, 2023, the Company leased 367 net mineral acres for an average bonus payment of \$526 per net mineral acre and an average royalty of 23%.

Acquisition and Divestiture Update

During the quarter ended June 30, 2023, the Company purchased 151 net royalty acres for approximately \$1.8 million and had no significant divestitures.

	SCOOP	Acquisitions Haynesville	Other	Total
During Three Months Ended June 30, 2023:				
Net Mineral Acres Purchased	113	5	-	118
Net Royalty Acres Purchased	144	7	-	151

Outlook

PHX is providing an updated operational outlook for 2023 as follows:

	Calendar Year 2022 Actual	Calendar Year 2023 YTD Actual	Calendar Year 2023 Outlook
Mineral & Royalty Production (Mmcfe)	6,613	4,104	7,600 - 8,600
Working Interest Production (Mmcfe)	3,084	683	1,200 - 1,400 ⁽¹⁾
Total Production (Mmcfe)	9,697	4,787	8,800 - 10,000
Percentage Natural Gas	78%	80%	78% - 83%
Transportation, Gathering & Marketing (per Mcfe)	\$0.63	\$0.43	\$0.45 - \$0.50
Production Tax (as % of pre-hedge sales volumes)	4.50%	5.50%	5.50% - 6.00%
LOE Expenses (on an absolute basis in 000's)	\$3,807	\$860	\$1,200 - \$1,400
Cash G&A (per Mcfe)	\$1.01	\$1.01	\$1.00 - \$1.06

(1) Pro-forma divestitures of Eagle Ford and Arkoma working interest assets, excludes potential future sales of additional working interest assets.

Non-GAAP Reconciliation

This press release includes certain “non-GAAP financial measures” as defined under the rules and regulations of the U.S. Securities and Exchange Commission, or the SEC, including Regulation G. These non-GAAP financial measures are calculated using GAAP amounts in the Company’s financial statements. These measures, detailed below, are provided in addition to, not as an alternative for,

*****MORE*****

and should be read in conjunction with, the information contained in the Company's financial statements prepared in accordance with GAAP (including the notes thereto), included in the Company's SEC filings and posted on its website.

Adjusted EBITDA Reconciliation

The Company defines "adjusted EBITDA" as earnings before interest, taxes, depreciation and amortization, or EBITDA, excluding non-cash gains (losses) on derivatives and gains (losses) on asset sales and including cash receipts from (payments on) off-market derivatives and restricted stock and deferred directors' expense. The Company has included a presentation of adjusted EBITDA because it recognizes that certain investors consider this amount to be a useful means of measuring the Company's ability to meet its debt service obligations and evaluating its financial performance. Adjusted EBITDA has limitations and should not be considered in isolation or as a substitute for net income, operating income, cash flow from operations or other consolidated income or cash flow data prepared in accordance with GAAP. Because not all companies use identical calculations, this presentation of adjusted EBITDA may not be comparable to a similarly titled measure of other companies. The following table provides a reconciliation of net income (loss) to adjusted EBITDA for the quarters indicated:

	Three Months Ended June 30, 2023	Three Months Ended June 30, 2022	Six Months Ended June 30, 2023	Six Months Ended June 30, 2022	Three Months Ended March 31, 2023
Net Income (Loss)	\$ (41,291)	\$ 8,589,010	\$ 9,511,953	\$ 4,568,555	\$ 9,553,244
Plus:					
Income tax expense (benefit)	(166,000)	976,000	2,901,000	1,009,000	3,067,000
Interest expense	524,294	286,345	1,081,767	516,557	557,473
DD&A	2,210,332	2,022,832	4,100,322	4,143,948	1,889,990
Impairment expense	-	6,277	2,073	6,277	2,073
Less:					
Non-cash gains (losses) on derivatives	(865,935)	3,282,921	2,306,464	(8,489,719)	3,172,399
Gains (losses) on asset sales	10,230	693,750	4,428,213	2,985,965	4,417,983
Plus:					
Cash receipts from (payments on) off-market derivative contracts ⁽¹⁾	-	(1,284,024)	(373,745)	(3,777,505)	(373,745)
Restricted stock and deferred director's expense	703,667	574,333	1,338,254	1,042,931	634,587
Adjusted EBITDA	<u>\$ 4,086,707</u>	<u>\$ 7,194,102</u>	<u>\$ 11,826,947</u>	<u>\$ 13,013,517</u>	<u>\$ 7,740,240</u>

(1) The initial receipt of \$8.8 million of cash from BP Energy Company, or BP, for entering into the off-market derivative contracts had no effect on the Company's statement of operations and was considered cash flow from financing activities. A portion of subsequent settlements with BP had no effect on the Company's statement of operations.

Debt to Adjusted EBITDA (TTM) Reconciliation

"Debt to adjusted EBITDA (TTM)" is defined as the ratio of long-term debt to adjusted EBITDA on a trailing 12-month (TTM) basis. The Company has included a presentation of debt to adjusted EBITDA (TTM) because it recognizes that certain investors consider such ratios to be a useful means of measuring the Company's ability to meet its debt service obligations and for evaluating its financial performance. The debt to adjusted EBITDA (TTM) ratio has limitations and should not be considered in isolation or as a substitute for net income, operating income, cash flow from operations or other consolidated income or cash flow data prepared in accordance with GAAP. Because not all companies use identical calculations, this presentation of debt to adjusted EBITDA (TTM) may not be comparable to a similarly titled measure of other companies. The following table provides a reconciliation of net income (loss) to adjusted EBITDA on a TTM basis and of the resulting debt to adjusted EBITDA (TTM) ratio:

*****MORE*****

	TTM Ended June 30, 2023	TTM Ended June 30, 2022
Net Income (Loss)	\$ 22,016,554	\$ 7,486,604
Plus:		
Income tax expense (benefit)	6,313,000	2,221,949
Interest expense	2,191,181	898,201
DD&A	7,452,846	7,297,339
Impairment expense	6,105,472	16,482
Less:		
Non-cash gains (losses) on derivatives	10,211,207	(815,184)
Gains (losses) on asset sales	8,921,031	1,112,581
Plus:		
Cash receipts from (payments on) off-market derivative contracts ⁽¹⁾	(2,334,403)	2,334,403
Restricted stock and deferred director's expense	2,944,517	1,691,912
Adjusted EBITDA	<u>\$ 25,556,929</u>	<u>\$ 21,649,493</u>
Debt	\$ 23,750,000	\$ 28,300,000
Debt to Adjusted EBITDA (TTM)	0.93	1.31

(1) The initial receipt of \$8.8 million of cash from BP for entering into the off-market derivative contracts had no effect on the Company's statement of operations and was considered cash flow from financing activities. A portion of subsequent settlements with BP had no effect on the Company's statement of operations.

Adjusted Pretax Net Income (Loss) Reconciliation

"Adjusted pretax net income (loss)" is defined as earnings before taxes and impairment expense, excluding non-cash gains (losses) on derivatives and gains (losses) on asset sales and including cash receipts from (payments on) off-market derivatives. The Company has included a presentation of adjusted pretax net income (loss) because it recognizes that certain investors consider this amount to be a useful means of measuring the Company's ability to meet its debt service obligations and evaluating its financial performance.

Adjusted pretax net income (loss) has limitations and should not be considered in isolation or as a substitute for net income, operating income, cash flow from operations or other consolidated income or cash flow data prepared in accordance with GAAP. Because not all companies use identical calculations, this presentation of adjusted pretax net income (loss) may not be comparable to a similarly titled measure of other companies. The following table provides a reconciliation of net income (loss) to adjusted pretax net income (loss) for the periods indicated:

PHX Minerals Inc. (NYSE: PHX) Fort Worth-based, PHX Minerals Inc. is a natural gas and oil mineral company with a strategy to proactively grow its mineral position in its core focus areas. PHX owns mineral acreage principally located in Oklahoma, Texas, Louisiana, North Dakota and Arkansas. Additional information on the Company can be found at www.phxmin.com.

Cautionary Statement Regarding Forward-Looking Statements

This press release includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Words such as "anticipates," "plans," "estimates," "believes," "expects," "intends," "will," "should," "may" and similar expressions may be used to identify forward-looking statements. Forward-looking statements are not statements of historical fact and reflect PHX's current views about future events. Forward-looking statements may include, but are not limited to, statements relating to: the Company's operational outlook; the Company's ability to execute its business strategies; the volatility of realized natural gas and oil prices; the level of production on the Company's properties; estimates of quantities of natural gas, oil and NGL reserves and their values; general economic or industry conditions; legislation or regulatory requirements; conditions of the securities markets; the Company's ability to raise capital; changes in accounting principles, policies or guidelines; financial or political instability; acts of war or terrorism; title defects in the properties in which the Company invests; and other economic, competitive, governmental, regulatory or technical factors affecting properties, operations or prices. Although the Company believes expectations reflected in these and other forward-looking statements are reasonable, the Company can give no assurance such expectations will prove to be correct. Such forward-looking statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond the control of the Company. These forward-looking statements involve certain risks and uncertainties that could cause results to differ materially from those expected by the Company's management. Information concerning these risks and other factors can be found in the Company's filings with the SEC, including its Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q, available on the Company's website or the SEC's website at www.sec.gov.

Investor Presentation

August 2023

Cautionary Statement Regarding Forward-Looking Statements

This presentation does not constitute an offer to sell, a solicitation of an offer to buy, or a recommendation to purchase any security of PHX Minerals Inc. (“PHX” or the “Company”). No offering of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended, or an exemption therefrom.

Cautionary Statement Regarding Forward-Looking Statements

This presentation includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical fact, included in this presentation that address activities, events or developments that the company expects, believes or anticipates will or may occur in the future are forward looking statements. The words “anticipates”, “plans”, “estimates”, “believes”, “expects”, “intends”, “will”, “should”, “may” and similar expressions may be used to identify forward-looking statements. Forward-looking statements may include, but are not limited to, statements relating to: our ability to execute our business strategies; the volatility of realized natural gas and oil prices; the level of production on our properties; estimates of quantities of natural gas, oil and NGL reserves and their values; general economic or industry conditions; legislation or regulatory requirements; conditions of the securities markets; our ability to raise capital; changes in accounting principles, policies or guidelines; financial or political instability; acts of war or terrorism; title defects in the properties in which we invest; and other economic, competitive, governmental, regulatory or technical factors affecting our properties, operations or prices. Although the Company believes the expectations reflected in these and other forward-looking statements are reasonable, the Company can give no assurance such statements will prove to be correct. Such forward-looking statements are subject to a number of assumptions, risks and uncertainties, many of which are beyond the control of the Company. These forward-looking statements involve certain risks and uncertainties that could cause the results to differ materially from those expected by the Company’s management. Information concerning these risks and other factors can be found in the Company’s filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K and Quarterly Reports on Form 10-Q, available on the Company’s website or the SEC’s website at www.sec.gov.

Readers are cautioned that any such statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in the forward-looking statements. The forward-looking statements in this presentation are made as of the date hereof, and the Company does not undertake any obligation to update the forward-looking statements as a result of new information, future events or otherwise.

Use of Non-GAAP Financial Information

This presentation includes certain non-GAAP financial measures. Adjusted EBITDA is a supplemental non-GAAP measure that is used by management and external users of our financial statements, such as industry analysts, investors, lenders and rating agencies. PHX defines “Adjusted EBITDA” as earnings before interest, taxes, depreciation and amortization, or EBITDA, excluding unrealized gains (losses) on derivatives and gains (losses) on asset sales and including cash receipts from (payments on) off-market derivatives and restricted stock and deferred directors’ expense. PHX references Adjusted EBITDA in this presentation because it recognizes that certain investors consider Adjusted EBITDA a useful means of measuring our ability to meet our debt service obligations and evaluating our financial performance. Adjusted EBITDA has limitations and should not be considered in isolation or as a substitute for net income, operating income, cash flow from operations or other consolidated income or cash flow data prepared in accordance with GAAP. Because not all companies use identical calculations, the Company’s calculations of Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

Oil and Gas Reserves

The SEC generally permits oil and gas companies, in filings made with the SEC, to disclose proved reserves, which are reserve estimates that geological and engineering data demonstrate with reasonable certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions, and certain probable and possible reserves that meet the SEC’s definitions for such terms. The Company discloses only estimated proved reserves in its filings with the SEC. The Company’s estimated proved reserves as of September 30, 2022, referenced in this presentation were prepared by Cawley, Gillespie and Associates, Inc, an independent engineering firm, and comply with definitions promulgated by the SEC. Additional information on the Company’s estimated proved reserves is contained in the Company’s filings with the SEC.

Overview

PHX is a growth oriented mineral rights company focused on natural gas

- In January of 2020, PHX Minerals began a dramatic company transformation:
 - New management / technical team with deep industry experience
 - New minerals only corporate strategy focused on growth
 - Acquire minerals ahead of the drill bit under active operators in the highest quality rock
 - New company name from the former Panhandle Oil & Gas to better align with strategy
- Former Company reserve footprint was scattered and consisted of both mature legacy non-operated working interest and royalty interest
 - Historically, no catalyst to provide predictable / sustainable volume or reserve growth
- Since 2020, have high graded assets by divesting virtually all of the material non-operated working interest assets and redeploying proceeds and free cash flow into mineral acquisition strategy
 - Predictable line of sight development provides growth catalyst
 - Deep inventory of drillable locations increases annual production volumes and cash flows
- Today, PHX is approximately 87% royalty by production volumes and 78% by proved reserves
- Transformation complete with sustainable model and balance sheet going forward

Sustainable Royalty Production Growth Through Conversion of Existing Mineral Location Inventory (see page 16)

Source: Company information and Enverus

1 Based on \$3.13 per share as of 07/21/2023 and 37 million shares outstanding on a fully diluted basis as of 06/30/2023

2 Market Cap plus debt of \$23.7 million minus cash on hand of \$1.3 million as of 06/30/2023

3 Calculated as working capital (current assets less current liabilities excluding current derivatives) plus availability on the borrowing base as of 06/30/2023; See Non-GAAP reconciliation in Appendix

4 Based on \$0.09 annualized Dividend per share

5 Total Debt / TTM Adjusted EBITDA; See Non-GAAP Reconciliation in Appendix

6 See Non-GAAP reconciliation in Appendix

7 At mid-point of production outlook (see page 12)

8 As of 06/30/2023; PHX also owns 167,228 unleased net royalty acres normalized to a 1/8th royalty

9 3P Reserves per 6/30/2023 CGA Mid Year Report as of 6/30/2023 at 6/30/2023 SEC price deck of \$82.41 per bbl of oil, \$31.24 per bbl of NGL, \$4.63 per mcf of gas (proved volume weighted average price)

Strategy Execution

Goals Set in early 2020

High Grade Asset Base

- Grow royalty production (higher margin/lower cost)
- Improve line of sight development opportunities
- Exit working interest assets (higher cost/lower margin)
- Divest unleased non-producing minerals lacking scale and line of sight development

Build a strong and sustainable balance sheet

- Improve balance sheet designed to withstand commodity price volatility

Become a consolidator in the mineral space

- Implement growth strategy that is balanced with appropriate debt management and dividend payout ratio
- Allocate capital to generate the best possible returns to shareholders

Generate return on capital employed (ROCE)

Achievements Through June 30, 2023

- Total royalty volume growth since 2020: 150%¹
- Mineral acquisitions completed: ~\$114 million
- Built a 10+ year inventory of line of sight development locations
- Working interest wellbores sold: ~1,380
- Unleased non-producing mineral acres sold: ~24,640

- Reduced leverage: ~2.5x to ~1.00x (Debt / TTM Adjusted EBITDA²)
- Improved commercial bank lending terms and relationships
- Enhanced liquidity profile as a result of superior asset performance and more predictable development timing

- Mineral acquisition transactions completed: 66
- Focus on smaller acquisition in targeted areas: ~\$1.7 million average (generates higher returns with less competition)

- Generated ~15% ROCE² in 2022 up from ~0% in 2019 and 2020
- Return profile under royalty only strategy driven by new volumes associated with well conversions from acquisitions

Improving Margins Driving Earnings & ROCE

- The two key metrics used by PHX to measure the success of our royalties-only strategy and royalties acquisition program are:
 - Return on Capital Employed (ROCE)¹
 - NAV per share measure (the PV-10 value of our proved and probable reserves)
- Balance sheet management and ample liquidity underpin our strategy in order to thrive across the various pricing cycles of the energy sector

Per Share NAV Continues to Grow

- Significant improvement in NAV both on an absolute and per share basis (published in every corporate presentation since early 2021) since royalty-only strategy effort began under new management team
- High grading assets with mineral acquisition program, despite divesting of non-operated working interest, has grown PV10 value and increased NAV per share since change in strategy
- Below reserve value independently verified by DeGolyer & MacNaughton (2021) and Cawley, Gillespie and Associates, Inc (2022-2023)
- Current asset base has lower risk and higher growth profile than the PHX pre-2020 legacy asset base

4 Technical PUDs, reviewed and approved by Cawley, Gillespie and Associates, Inc., share all technical merits of PUDs but development timing is uncertain. PHX Technical PUDs may be PUDs in their respective operator's reserve report.

5 Scheduled out approximately 10 years for PROB and 15 years for POSS

6 PV-10 less net debt of \$23.8 MM as of 6/30/2023 divided by total shares outstanding as of 6/30/2023

Robust Acquisition Process

- PHX believes that being the aggregator of choice in our core areas is a key component of our strategy
 - Royalties, just like any other hydrocarbon asset class, are naturally depleting assets and reinvestment is required to maintain and grow cash flows over time
 - We target minerals in our core areas (SCOOP and Haynesville) with full analysis of geology and established type curves in order to minimize execution risk
 - Typical profile of acquisitions includes an already producing component as well as royalties that are either in the process of being developed (WIPs) or will be developed over time (locations) by reputable and creditworthy operators to minimize timing risk
 - Focused on active operators in order to minimize development timing risk
 - Our acquisition program targets returns well in excess of our cost of capital (see ROCE) to drive increasing shareholder value

Acquisition Summary

Acquisitions by Basin by Year

- Focused on highest quality rock in the SCOOP and Haynesville plays
- Targeting a mix of production, near term development opportunities via wells in progress and additional upside potential under high quality operators
- \$29.9M in acquisitions in SCOOP and \$74.3M in Haynesville since Q1 of 2020

Positioned For Growth Through Acquisitions

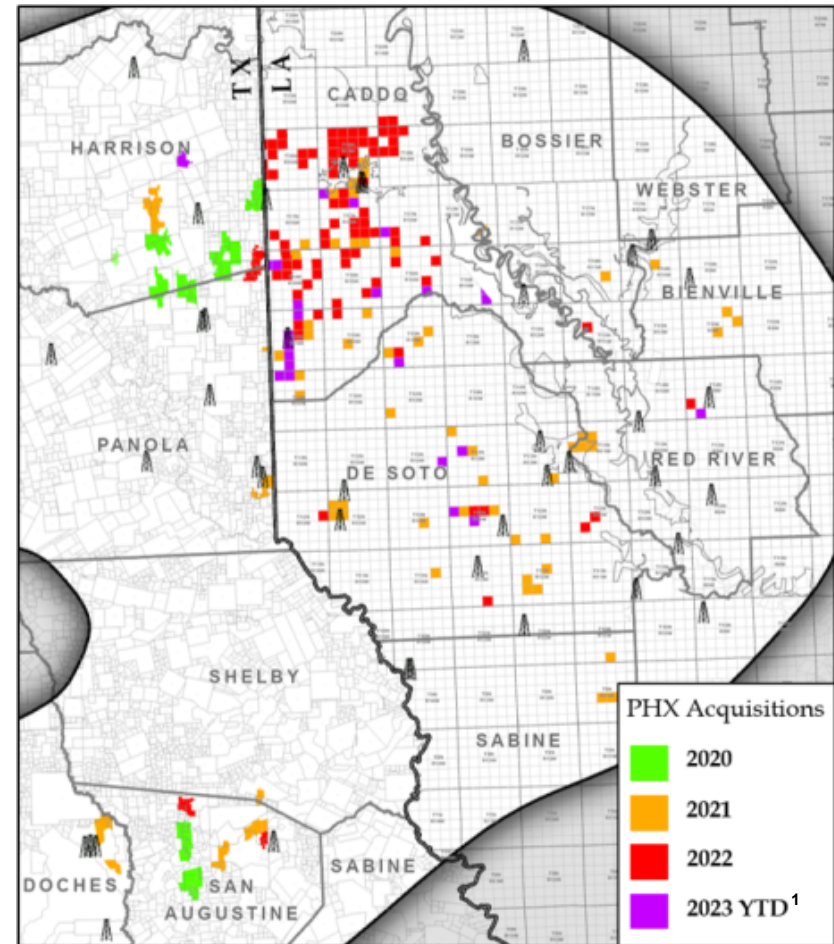

- Total domestic US mineral market estimated at ~\$0.5 - 1 trillion⁽²⁾
 - Highly fragmented
 - Predominantly owned by private individuals
 - PHX well positioned to be one of the premier consolidators in our core areas
 - Focus on smaller deals increases opportunity set and potential returns

Total Public Company Enterprise Value⁽³⁾: 3%

Market Opportunity Midpoint⁽¹⁾: 97%

Acquisition History

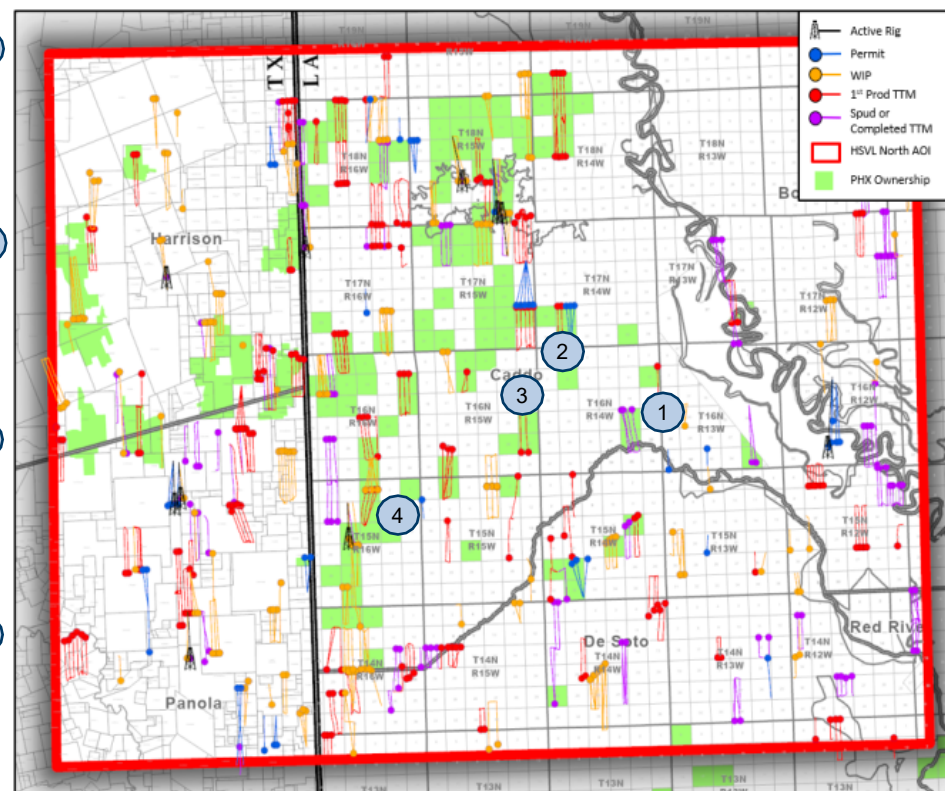

All acreage currently owned in the Haynesville and predominately all acreage currently owned in Springboard III area of interest was acquired under current management team's guidance

North Haynesville Update

- Operators are drilling 3-5 wells per unit, and a positive indication of near term volumes and cashflows
- Since 2019, core development areas have been extended as new completion designs have lowered breakevens
- Key Operators: Aethon, Trinity, Chesapeake, Silverhill, Blue Dome and Paloma
- PHX North Haynesville Ownership¹: 5,347 NRA (total PHX Haynesville ownership 7,326 NRA)
- Gross Wells In Progress²: 58
- Gross Active Permits³: 8
- Gross Active Rigs⁴: 10

Surging LNG Demand

- Current LNG export capacity is fully committed
- Additional capacity of 6.1 Bcf/d is currently under construction and is expected to come online by 2025
- LNG provides producers the opportunity to supply gas to premium markets across the globe

Definition of a Mineral Interest

Minerals	ORRIs
<ul style="list-style-type: none">➤ Perpetual real-property interests that grant hydrocarbon ownership under a tract of land➤ Surface and mineral ownership have been negotiated in most cases over the decades➤ Surface owners cannot legally prevent the development of minerals under most circumstances➤ Represent the right to drill, and produce hydrocarbon or lease that right to third parties for an upfront payment and a negotiated percentage of production revenues	<ul style="list-style-type: none">➤ Overriding royalty interests➤ Royalty interests that burden the working interests of a lease➤ Right to receive a fixed, cost-free percentage of production revenue (term limited to life of leasehold estate)

Illustrative Mineral Revenue Generation

Royalty Interests Versus Working Interests

PHX believes that royalty assets provide a higher risk adjusted return compared to working interest assets

Illustrative Margin Comparison

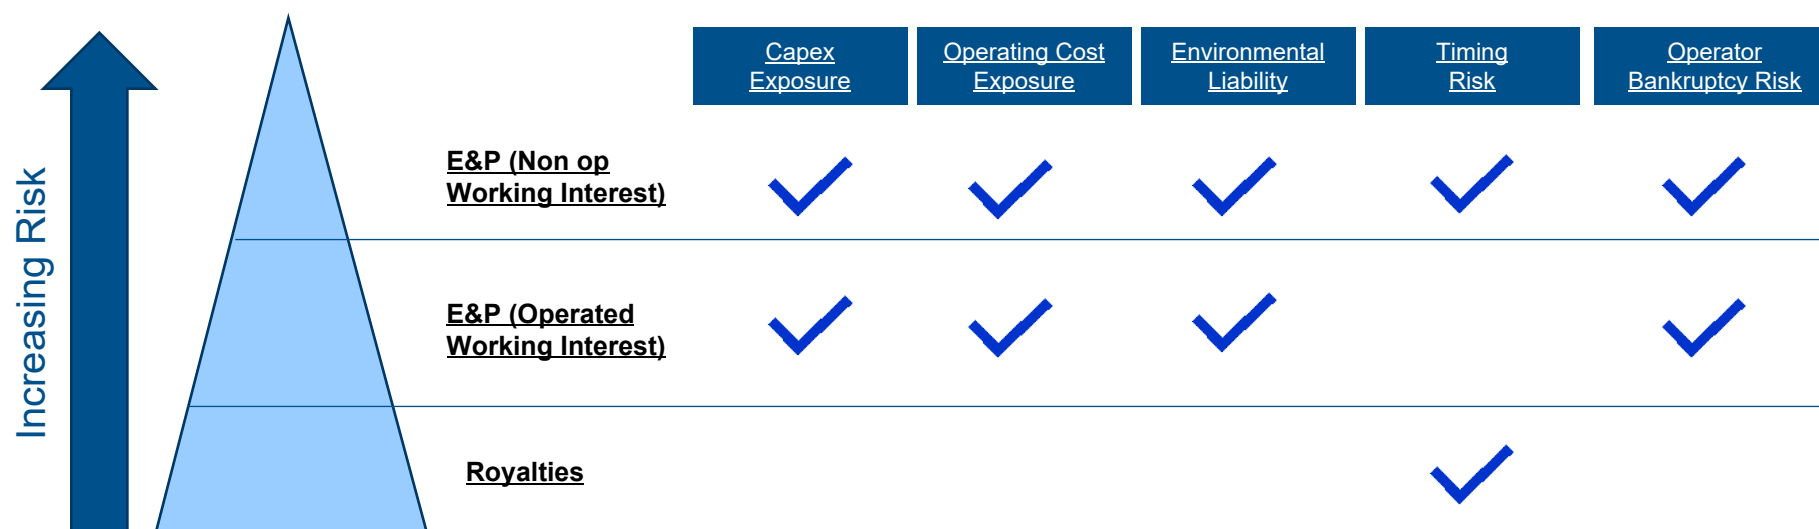

Working Interest			Royalty	
Mcfe Revenue	\$3.00		Mcfe Revenue	\$3.00
Less: Royalty Burden	(\$0.60) ⁽¹⁾	Royalty owner's volumes come from working interest royalty burden	Less: LOE	-
Less: LOE	(\$1.00)		Less: Taxes	(\$0.15)
Less: Taxes	(\$0.15)		Less: Transportation	(\$0.20) ⁽²⁾
Less: Transportation	(\$0.25)		Cash Margin (\$)	\$2.65
Cash Margin (\$)	\$1.00		Cash Margin (%)	88.0%
Cash Margin (%)	33.0%			

- Non-operated Working interest ownership bears one hundred percent of the development and production costs associated with a hydrocarbon well.
- Non-operated Working interest owners receive their share of the revenue after the royalty interest owners are paid.

- A mineral interest is real property that entitles the owner to all the rights associated with hydrocarbons below the surface in perpetuity.
- A royalty interest is created from a mineral interest and entitles the owner to receive a certain percentage of the gross revenue generated from the sales of the hydrocarbons without incurring development and operating costs.

Royalty Interests Have Less Risk Than Working Interests

- Both royalties and non-operated working interest asset classes have the same exposure to pricing cycles, however,
- Royalty assets have fewer risks when compared to other hydrocarbon asset classes
 - The biggest risk associated with royalties is the lack of control over development timing
- Non-operated working interest assets have similar timing uncertainty as royalty owners
- Non-operated working interest assumes all cost to operate the well
 - Royalty owners are not subject to lease operating expenses, SG&A overhead or workover expenses

Royalty Interests Trade At Higher Multiples Than Working Interests

- Investors value working interest and royalty companies differently in the public markets
- Royalty companies trade at a premium to working interest companies primarily due to lower risk and lower capital intensity of the business
- Over time, PHX believes it should see an increase of its Enterprise Value / EBITDA ratio (adjusted for size) as the market recognizes the success of the royalties-only strategy

Minerals are Real Property

Mineral and royalty interests are generally considered by law to be real property interests and are thus afforded additional protections under bankruptcy law

Mineral Interest owner entitled to ~15-25% of production revenue based on royalty rate

Senior Secured Debt

Senior Debt

Subordinated Debt

Equity

Working Interest owner entitled to ~75-85% of production revenue based on royalty rate and bears 100% of development cost and lease operating expense
